

CHRISTOPHER CLARK C. MANGANTI

Full Stack Engineer

PROFESSIONAL EXPERIENCE

Full-stack Software Developer

The Power of 1000 Leaders, Richmond Hill, ON, Canada, Ontario

May 2023 – May 2024

- Engineered cutting-edge desktop applications and websites that transformed user engagement and functionality for both internal projects and external client sites. My designs delivered exceptional user experiences and boosted user satisfaction, reflecting my commitment to innovation and excellence.
- Spearheaded the entire software development lifecycle, from initial concept to deployment, ensuring all projects were executed flawlessly, on time, and in full alignment with client needs. My ability to translate complex requirements into robust solutions drove project success and earned client accolades.
- Orchestrated impactful digital marketing strategies by taking the lead on managing social media platforms and crafting compelling content that significantly elevated brand visibility and engagement. This strategic approach led to a substantial increase in online recognition and customer interaction.

Full-stack Web Developer | IT Support

The Luxury Look, LLC, Scottsdale, AZ, United States

August 2023 – June 2024

- Developed websites integrating advanced design, custom coding, and seamless database solutions that enhanced the company's digital presence. My work resulted in a streamlined user experience, solidifying the company's position in a competitive market.
- Delivered exceptional IT support, swiftly diagnosing and resolving technical issues to maintain uninterrupted operations and empower the team with efficient tools and processes. My proactive approach minimized downtime and optimized system performance and company processes.
- Championed social media content and engagement strategies, driving significant growth in brand visibility and audience reach. My innovative content planning and engagement tactics cultivated a dynamic online community and strengthened brand loyalty.

Full-stack Web Developer

EJD IT Services, San Roque, Guagua, Pampanga

June 2020 to April 2024

- Crafted and launched highly interactive and visually stunning websites that set new standards for usability and functionality. By implementing intuitive design and cutting-edge technology, I attracted and retained users, ultimately driving increased traffic and engagement.
- Managed comprehensive software development projects with precision and expertise, delivering solutions that consistently exceeded client expectations. My adept project management ensured seamless collaboration, timely delivery, and exceptional results.

Education

Bachelor of Science in Computer Engineering - 2020 to 2024,

Don Honorio Ventura State University, Bacolor Pampanga

PROFESSIONAL EXPERIENCE

Computer Operator

JNC Digital Studios, Sta. Filomena, Guagua, Pampanga

September 2019 – December 2019

- Efficiently coordinated and prioritized printing and duplication requests, managing a high volume of orders to meet tight deadlines and client demands. My attention to detail and organizational skills ensured top-quality output and customer satisfaction.
- Produced high-caliber printed materials in line with rigorous production standards, enhancing client relationships and driving repeat business through reliable and professional service.

CORE COMPETENCIES

- **Full-Stack Development:** Expert in creating dynamic, user-centric web and desktop applications with a focus on both front-end and back-end technologies.
- **AI & Machine Learning:** Proficient in developing AI solutions, including early detection systems and machine learning models using advanced algorithms.
- **Project Management:** Effective in managing the full software development lifecycle and leading projects to successful, timely completion.
- **Digital Marketing:** Skilled in crafting and executing digital strategies, including social media management and content creation.
- **Technical Support:** Strong background in diagnosing and resolving technical issues to maintain smooth operations.
- **User Experience Design:** Adept at designing intuitive interfaces that enhance user satisfaction and engagement.
- **Client Relations:** Proven ability to communicate complex technical concepts and deliver tailored solutions to meet client needs.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, PHP
- **Frameworks & Libraries:** ReactJS, NodeJS, ExpressJS, Laravel, TensorFlow, PyQt5
- **Web Technologies:** HTML5/CSS3, Webflow, Elementor, WordPress, GoHighLevel
- **Database Management:** MongoDB, Firebase, MySQL
- **Development Tools:** Visual Studio Code, Git and Github, Notion, Asana
- **Design Tools:** Adobe Creative Suite (Photoshop, Premiere, Illustrator), Figma, Capcut, Canva
- **Hosting & CMS:** Hostinger, GoDaddy
- **Analytics & SEO:** Google Search Console, Google Analytics
- **Networking & Security:** TCP/IP, Firewall Configuration, SSL/TLS
- **Generative Ais:** OpenAI, Google Gemini, Synthesia AI, ElevenLabs

NOTABLE ACHIEVEMENTS

- **Regional and Nationwide Champion for Best Research**
7th Mechatronics and Robotics Society of the Philippines
June 18-19, 2024

Awarded for the development of "OptiScan", a cutting-edge AI tool for early cataract detection, demonstrating excellence in research and technological innovation. The competition was organized by the Mechatronics and Robotics Society of the Philippines in partnership of the Department of Science and Technology (DOST) and the Metal Industry Research and Development Center.
